Subject DuSable Park-Cross Section Drawing-Remediation Area D

All, Please find the enclosed cross section drawing for the remediated area on the northern mound at DuSable Park. This area, designated as Area D, had very elevated levels of thorium impacted soils and was encountered during our screening process for the construction of the ramp to mid-level Lake Shore Drive. Sands were encountered in this area at approximately four feet below grade.

Please call me in the event you have any questions or comments relating to the drawing, 312-307-7293,

Regards,

Don
